and states that he has no other references about the question

3 At the request of the Residency, certain works estimated to cost Rs 14 Lbs/- were sanctioned in January 1914 for draining the swamp of the Sampiga tank. The works are probably in progress now. There is however no question of preserving the tank as apprehended by the petitioners from the Chief Engineer's note of the 25th May 1911, it is seen that the tank will lose a water spread of 23 acres

have been detailed in G O dated the 2nd June 1914. These have the effect of reducing the water spread of the tank by 23 acres. The Sanr Engineer has however given the petitioners to understand clearly that the improvements to the tank will in no way affect their present interests

to letter under disposal

eg in the Muteshakka, the petitioners admit that the tank is not being breached and that the feeder channels are not being closed, and express satisfaction at the assurance given to them by the Sanr Engineer that after the completion of the work now in hand the tank will get larger supply of water than hitherto. They nevertheless believe that there will be a reduction in the storage of water in the tank hereafter & pray that the level of the weir may be raised. The Sanr Engineer has reported that this prayer cannot be granted without danger to the bund and the roadway.

20 If approved, the petitioners may be informed that their prayer to raise the level of the weir cannot be granted.

Submitted for orders, with reference to the enquiries made in serial 4

Mysore Public Works Department,

No. 10510 Con 348 Central Office,

Dated Bangalore, 19th November 1914.

From

Karpur Shrinivasrao, Esq., B.Sc., L.C.E.,

Offg Chief Engineer of Mysore,

To

D.M.Narasinga Rao, Esq., B.A., B.L.,

Offg Secretary to Government,

General and Revenue Departments,

Bangalore.

Sir,

With reference to your letter No.10599/Ml.304-13 dated the 22nd April 1914, I have the honour to forward herewith a copy of letter No.430 dated the 29th October 1914 received from the Sanitary Engineer together with the mutchalika therein referred to in re the complaint of the ryots owning lands below the Sampige tank in the Bangalore City. They have no objection to the work as designed being carried out. It is also reported that it is not possible to raise the level of the weir as prayed for by the petitioners, without danger to the bund and the roadway.

2. The 3 petitions received with the reference under reply are herewith returned.

I have the honour to be,

Sir,

Your most obedient servant,

M. Jyothiramaiah

Deputy Chief Engineer,

Mysore P. W. D.

Letter No.430 dated the 29th October 1914 from the Sanitary Engineer, Sanitary Division, to the Chief Engineer of Mysore.

In continuation of my letter No.423 dated the 22nd instant returning the petitions from ryots owning lands below Sampige tank I have the honour to report that the petitioners in a body appeared before me in office yesterday. They were given to understand clearly that the improvements now being done to the tank would in no way affect their present interests. A written statement obtained from them is herewith submitted for information. It is not possible to raise the weir level without danger to the bund and roadway
